## SEEKING US CAREGIVERS OF FIRST RESPONDERS FOR A RESEARCH STUDY

Are you the caregiver of a first responder in the US  
(e.g., law enforcement officer, fire fighter,  
emergency medical personnel)?

Does the first responder you care for have:  
Traumatic Brain Injury/Concussion (TBI)  
And/or Other Catastrophic Injury (CI)

### PURPOSE OF THE STUDY:

The purpose of this research is to investigate the lived experiences and needs of caregivers, in the United States, of first responders who have experienced a traumatic brain injury/concussion (TBI), and/or other catastrophic injury (CI). Survey responses will be used to work toward improving access to needed supports and services.

- Participants must be English speaking, adult caregivers of first responders with TBI/concussion and/or other CI. They must reside in the United States and must be 18 years old or older. Family caregivers for the study may include spouses, parents, children, extended family members, partners, friends, and peers who provide any care including emotional and social supports.
- The survey will take about 20-30 minutes to complete. The survey will gather information about needs and experiences of caregivers, [https://oregon.qualtrics.com/jfe/form/SV\\_eWfTHmTJNmV6dE2](https://oregon.qualtrics.com/jfe/form/SV_eWfTHmTJNmV6dE2)
